Fridays and Saturdays.

### Tournament Successful

The Badminton tournament played Saturday was highly successful from every point of view. Contestants were present from High River, Vulcan, Nobleford and Milo. Play commenced at 10 a.m. and games were played continuously until 11 p.m.

#### Men's doubles:

Watts and Henderson, Champion, advanced to the finals by defeating Pendergrast and Mead, Nobleford, 21-15, 21-15, Campbell and Dito, Champion 21-12; Cully and Barry, Milo, defeated Fisher and Ruby, Nobleford, 21-19, Anderson, and Luchin, Champion, 21-17 to advance to the finals. In the finals Cully and Barry, Milo, defeated Watts and Henderson, Champion, 15, 13, 12 to win the cups.

In the second event Fisher and Ruby, Nobleford, were the victors, defeating Pendergrast and Mead, Nobleford, 15, 16, 15 to win.

#### Mixed Doubles:

Mrs. Dito and Watts, Champion, after a series of very interesting games were the victors in this event. Cup also offered for this competition.

In the second event Mrs. Nelson and Barry of Milo defeated Miss Fath and Campbell of Champion to win the competition.

A few sets of Ladies' doubles were played in which Miss Neithal and Mrs. Nelson of Milo won.

Prizes were awarded in all events except the first competition in Men's Doubles, the winners of these competitions being awarded cups. Two pairs of Purcell badminton shoes were donated by McMurry's, Calgary, as prizes in the second event, mixed doubles.

Games were keenly contested throughout, and the crowd that gathered to witness the tournaments were unanimous in their decision that the affair should be annual.

Beth A. S. and C. D. McDougall had animals placed in the prize winning classes and achieved satisfactory prices for their shorthorns at the recent spring show and sale held in Calgary. One of Alex McDougall's string, Lismore Perfection, sold for \$220.00 to Joseph Shiled, McLeod. Mr. McDougall averaged \$10.00 head on five other animals sold.

On Monday evening, March 27, C. McLean put a telephone call through to his son Gordon, who is visiting his uncle, Mr. Glodhill, in Winnipeg. Ten minutes after the call was entered Mr. McLean was speaking to his party. Both Mr. and Mrs. McLean spoke on the message and found it as clear as though speaking locally.

Mrs. E. Grace Scaife of Calgary, Worthy Grand Matron of the O. E. S., made her official visit to Champion Chapter on Wednesday, March 28. She approved highly of the work of the Chapter which she found comparatively in the highest class. A banquet followed in which many interesting addresses were delivered. Visitors were present from Vulcan, Carmangay, Lethbridge and McLeod. While in town Mrs. Scaife was the guest of Mrs. Geo. Orr.

The board of managers of the United church will meet on Monday, April 3rd in the church.

### Quake Experiences Related

Mr. and Mrs. Clarence Davis are home after spending the winter in Long Beach, Calif.

In relating their experiences in the recent quake in Long Beach, Mr. Davis stated that in all his experience he had never witnessed such a catastrophe.

At the time of the quake, he and Mrs. Davis were on their way home from the Navy Sports, being held at that time in Long Beach. They continued on their way, driving over debris, dodging signs, etc. Mr. Davis heading for an open lot near his apartment. Buildings were crumbling on all sides, wires were torn down, lights were demolished, sidewalk heaved and fell shattered, on all sides, everything was a total wreck. On arriving at the open lot, they found many here and all camped for four days before daring to enter their homes. The apartment in which Mr. and Mrs. Davis lived, being reinforced, remained standing, although it was severely cracked. Meals were cooked on a bon fire, food being supplied by large trucks. At the time of the quake, and for several days following, it was impossible to buy a meal in Long Beach. After things were straightened up some what a few small eating places were established.

Mr. Davis stated that easter pillars, pulling streets, shoveling debris, so traffic could pass. Hundreds of men were sent out, it is estimated, to clear debris, to be carted away and thrown into the ocean. Out of forty-two schools in Long Beach, some magnificent buildings, only two remained standing. Some of the churches, considered to be the finest in the world, were completely demolished.

An outstanding feature was the way in which the Marines handled the situation. Mr. Davis stated that it was 100 per cent.

In timing the quake, Mr. Davis stated the first shock lasted 55 seconds, and a shock followed every 15 minutes for the remainder of the day and night, several shocks registered during the next few days.

Mr. and Mrs. Davis were in touch with all residents from this district, now living in Long Beach, and all were safe and unharmed.

The Canadian Pacific Express announces the following special local tariff applying on eggs to Lethbridge, rate per 100 lbs., Champion 30 cents. Rates are not proportional nor intermediate, shipments under this tariff are pound rate, minimum 50 cents. J. S. Collins, agent

Mr. and Mrs. Hugo Geschwendt and family, who have spent the winter months visiting their homes in Germany, returned to Champion Tuesday. Mr. Geschwendt reports a splendid trip both ways, finding conditions in Germany very similar to here.

The persistent spring weather will be very favorable to the annual cleanup, which in many instances is being proceeded with.

The committee in charge of the Irish Concert programme was Mrs. Baker and Mrs. Ulrich, not Mrs. Bastin as stated in last issue.

# One Of the Contributory Causes Of the Present Crisis is That People Do Not Love the Land

For thinkers of the cause of the present crisis on any one thing, and although there is some emphasis in emphasis, most people include the following as the major reasons of the world's travail - in the realm of politics, the war debts, excessive governmental expenditure, international commercial competition, the tariff wall, tariff barriers; in the realm of economics, over capitalization, over concentration of spending power, over-production; and in the realm of sociology, machines, individual extravagance.

These are not new, and perhaps there never will be, complete harmony over the order of importance of these causes. We even wonder how pertinent is their application to this continent. With the exception of the war debts, the causes of the present situation, the causes of the present "depression" (we use the word guardedly) as listed above are a large degree localized. That is to say, they originate in North America and their influence is felt within its confines. This realization is challenging, for it forces a deeper probing of the causes of the existing economic and social tumult.

Perhaps an astute investigator would not for long miss the profoundly disturbing psychological basis of the present conditions. North Americans, as a whole, are a non-racial group, they are not enslaved to the land. It is true that no single industry is as numerically great as that which derives its living from the soil, and that therefore the charge of rootlessness is not to be entirely unwarranted, but the real culprit seems to be that these people do not love the land. Rather, they resent their livelihood from it; they take and take and take from the land, and they hate that which they do.

The broad contention is that this is a contention that has never been level - perhaps it is too shortly settled - since its soil is not loved. And dotting its wide reaches is a multitude of chuckling hens, the Main Streets, with their restless roosting broods. Distressingly few have made these towns mighty and unshakable. The motto of most of their people have not penetrated the cement streets to the good earth below; humanity and the soil have not met.

This condition has held for several years now. You might look on the face of a man for the city, and is swallowed up in its clanking machinery. And so the landed classes lack continuity. There has been a mere idle rocking of forces in the shift from country to town. And now the convert seems to be paying a twelve-cent tax retribution for its superficiality.

Man should not merely conquer the land, he should also win it. And that is where North America has so far failed. The nation is creating a dead, listless, weary, psychology in the hearts of its losers, it is wrecking a subtle vengeance that may yet be more terrible than anyone can conceive - Winnipeg Free Press.

## An Enviable Position

**Britain Has Confidence Of People Imperious To Panic**

Walter Lippmann, writing in New York *Herald Tribune* says: "Why is it that Britain is comparatively better placed at the moment than so many other nations? Is it because she is more powerful? No, she is smaller. Not at all. The fundamental difficulties of Britain are real ones. But what Britain has had is the confidence of a disciplined people, of a people politically competent that they are impervious to panic. The past few years have been a period of continual and almost total loss; but to them that the ordinary happy-go-lucky methods of each for himself, each Senator, each faction, each state, each section, each privileged group for itself, may be all very well in easy times, but in the midst of a crisis they are as impossible as in time of war."

Professor Einstein announces that up to now he has been unsuccessful in reconciling the quantum theory with the relativity theory. All of us will therefore have to be content with perfectly understanding each theory separately, as we now do.

The British food control is watching closely the effect on retail prices of present and future restrictions of meat imports.

## Certified Seed Potatoes

### Official Tags Constitute Guarantees To The Public

Canadian certified seed potatoes are turning in a record crop for the world, but, nevertheless, many people have a hazy idea of what is implied by the word "Certified." There need be doubt as to the word's true significance for the Dominion Department of Agriculture has a definition of agriculture which includes a measure of record-keeping. This record is of good type, from vigorous plants, and, as far as practical under advanced conditions of farming, relatively free from serious diseases. When potatoes have been imported from abroad, they are certified by an authorized officer of the Dominion Department of Agriculture, and have been found vigorous and to conform to the standards set of freedom from serious diseases and, of purity of variety, which may be certify. Official tags are issued to each certified receiver and these tags constitute the guarantee that Canadian certified seed potatoes are being dealt with.

Perhaps an astute investigator would not for long miss the profoundly disturbing psychological basis of the present conditions. North Americans, as a whole, are a non-racial group, they are not enslaved to the land. It is true that no single industry is as numerically great as that which derives its living from the soil, and that therefore the charge of rootlessness is not to be entirely unwarranted, but the real culprit seems to be that these people do not love the land. Rather, they resent their livelihood from it; they take and take and take from the land, and they hate that which they do.

The broad contention is that this is a contention that has never been level - perhaps it is too shortly settled - since its soil is not loved. And dotting its wide reaches is a multitude of chuckling hens, the Main Streets, with their restless roosting broods. Distressingly few have made these towns mighty and unshakable. Man should not merely conquer the land, he should also win it. And that is where North America has so far failed. The nation is creating a dead, listless, weary, psychology in the hearts of its losers, it is wrecking a subtle vengeance that may yet be more terrible than anyone can conceive - Winnipeg Free Press.

## Winnipeg Newspaper Union

### Fatally

(By Ruth Rogers)

A SMART MODEL WITH CERTAIN VERSAILETIES REGARDING MATERIALS

It's unbelievably simple to fashion. The scarf neckline is easy to handle, yet new and attractive in effect. The bodice is cut with raglan shoulders. All you have to do is to join the sleeves to the bodice, following the performances for same.

As for materials for this charming garment, it only remains for what occasion it is to be worn.

For street, it is lovely in navy blue crinkly crepe silk with white crepe silk scarf collar.

Very effective and cool for spring and later wear is to make it with short sleeves of a crepe silk print with a small floral pattern.

It's sporty with short sleeves of grey rabbit's hair wool with yellow and white stripes.

Style No. 575 is designed for sizes 14, 16, 18, 20, 22, 24, 26, 28 and 30 inches.

Size 16 requires 3 1/4 yards 39-inch,

with 5/8 yard 38-inch contrasting.

Printed pattern 30 cents in stamps or coin coin is preferred. Wrap cold carefully.

## British Admirial Dead

Sir Martin Jerram Led Second Battle Squadron At Jutland

The leader of the second battle squadron at Jutland and one of the most prominent naval figures of the present era is dead in the person of Admiral Sir Martin Jerram, 74-years old.

His decorations for service and valor were from several countries including one he gained early in his career which he always prized — the Admiral Michelin Society's medal for sailing.

Sir Martin headed the committee investigating the lower-deck grievances at the close of the war and his pay revision suggestions were adopted.

## The Banks Of Scotland

No Failures For Fifty-Five Years

### Constitute Record

A letter in the Detroit News says the word British includes Scotland geographically, but in many functions they are different and independent of England, as well as Scotland and Scotch banking.

While England banks some 12 years and Canada about 10 years without a bank failure, it does not seem to be generally known that "the trust in the Scotch banking," Scotland, has not had a bank failure since the City of Glasgow Bank failed in 1878, 55 years ago.

This should not be surprising to the American public who are crying for safer banks to keep their money in.

## Keeping The Wolf Away

A modest, but well-known poet found himself sitting next to a very plain-speaking judge at a recent function in London.

In response to the "poet" regarding his business, the literary man confided he had "been known to have a few poems published."

"And can a living be made writing poetry nowadays?" asked the judge.

"I at least manage to keep the wolf from the door," was the reply.

"Ah, I see! Read your poems to it, I suppose."

## Boxed Apples Popular

Current statistics of imports of apples into the United Kingdom from the United States and Canada show a decrease, compared with the same period last year.

It is the total receipts of barrel-packed apples, but a large increase in receipts of box-packed fruit.

## "ROYAL SCOT" READY FOR LONG TRIP

Canada and the United States are going to see the "Royal Scot" this year when the famous train will tour the chief cities of the Dominion and the United States, following the Chicago World's Fair. The train will be complete even to coaches and baggage cars and it will be the first trans-Atlantic visit of a complete British train. Here we see the "Royal Scot" leaving London to be overhauled for the trip.

# Planning To Establish A Well-Founded Town Worthy Of Western Canada's Sea Port

There will be no "bubble" boom for the Port of Churchill; nothing so will glitter temporarily with optimistic opportunity only to crack from the lack of constructive merit.

Prepared to throw open the town-site to public occupation this spring, Manitoba Government officials, after entering its role as an infant port, are planning to prevent any undirected rush to Churchill. They want to establish a well-founded town worthy of Western Canada's outlet to the sea.

Meanwhile, directors of the town and port are optimistic. People in many parts of the world are interested in the future of the rugged little settlement across the river from the scattered pile of rock that once was Churchill.

Hundreds of residents have been received to circulars sent out by the Department announcing when the townsite would be open for settlement.

Numerous applications for permission to establish various business enterprises have been received by the Department of Lands and Forests, charge of direct work.

Many have requested further information regarding business and shipping possibilities before deciding to make application.

Divorced husbands in 1921 formed 0.8 per cent. of the male population, exactly the same as in 1931, but divorced wives in 1921 formed 0.9 of the female population, so that pro rata to population there were fewer divorced wives in 1931.

Divorced husbands in 1921 formed

0.8 per cent. of the male population,

exactly the same as in 1931, but di-

vorced wives in 1921 formed 0.9 of the female population.

Through employment it is esti-

mated that 104,600 people in Hawaii are dependent on sugar plantations for their livelihood. This is nearly one-third of the population.

## Once Was Enough

The internality of the Prince of Wales was amusingly illustrated at a brilliant function at the Spanish Embassy in honor of Vice-President Julio Roca of Argentina. An attractive Spanish dancer dropped her comb.

The Prince picked it up and returned it to her.

After a few moments the dancer dropped two combs and a flower near the Prince.

The guests roared, but the Prince refused to budge.

A gold rec-very machine has been developed by a group of mining men in Mendo Park, Calif., that breaks ore into fine dust with 12 hammers that strike 600 blows a second.

# "SALADA" TEA

"Fresh from the Gardens"

A Great Opportunity.

In articles written for this column a studious effort is made to avoid subjects of a partisan political character, because we are not concerned with the fate of political parties, as such, but only with the effect which the adoption or rejection of any given policy may have upon the welfare of the community. It is the duty of every newspaper to give its readers an appearance of partisanship, discussions of even such subjects which undoubtedly are in the public interest, but which, unfortunately, have become involved in party controversy, has not been undertaken. The aim of this column has been, and will continue to be, to present information logically and fairly interpreted, and leave it to the reader to reach his or her own conclusions.

One subject which has, therefore, been much or less avoided is the Tariff. It is the duty of every newspaper to give the news and commerce of the country, on both internal and external development, and international relationships in general. That taboo on the wide subject of Tariffs still remains because political parties remain sharply divided on the question, but there is one particular aspect of the Tariff and Trade question which, within recent weeks, has been lifted out of the realm of partisan controversy so far as Canada is concerned. Reference is to the subject of reciprocity with the United States.

All political parties in Canada are now definitely committed to the policy of entering into favorable trade relations with our great neighbor to the south, and, most probably, the present Administration in the United States is also favorable. It would appear, therefore, unless purely selfish interests of a particular party are allowed to unduly influence the probable course of events, that Canada in the trade relations of these two good neighbors will shortly be written.

After all, it will not really be the writing of a new chapter, but the re-opening after a long interval of the book at an old chapter, and a revision of that chapter in the light of present day developments and needs. Reciprocity did not last very long, but the Canadian and American governments, and it was admittedly advantageous to both countries. Why, then, was it abandoned? The Encyclopaedia Britannica gives the reason in these words:

"A heritage of differences and difficulties had been left to be settled between England, Canada and the American Union as the result of the Civil War. In retaliation for the supposed sympathy of Canadians with the South in the struggle the victorious North took steps to avenge in 1865 the military victory of 1861, which had conferred such great advantages on both countries."

Whatever the differences and difficulties and ill-feelings and suspicions which were engendered by the American Civil War, they have long since passed away. They no longer stand as a stumbling block to the development of the freest and largest possible exchange of trade between these two countries.

Now with the situation in Canada being that any Government in power at Ottawa, whether Conservative, Liberal, C.C.F., or a coalition of any two or all three parties, would be committed by their party declarations to the negotiation of a reciprocal trade agreement, and with the Roosevelt Administration, equally favorable, the question appears to be most opportune for the cultivation of the strongest possible political sentiment in favor of the realization of such a policy on a comprehensive scale, and covering the widest possible range of commodities.

According to Henry Chalmers, of Washington, chief of the Foreign Tariff Service, the situation is as follows: "The Government is not in a position to enter into a reciprocal tariff agreement." Even before the Hoover Administration retired from office the Government tariff experts had been put to work on a reciprocal tariff programme, said Mr. Chalmers, in order to help the "Roosevelt Administration get a flying start."

Mr. Roosevelt's Secretary of Commerce, Daniel C. Roper, openly advocates a United States tariff policy "of common sense and common decency to other nations." He said: "For many years we have, as a nation, been pursuing a policy of protectionism. And we have been doing it so well, while at the same time we have actually been doing our best to place in this path almost insurmountable obstacles. There are honest differences of opinion as to tariff policies, but I believe that an overwhelming majority of the American people have unmistakably shown that they are in favor of a policy that would occur in foreign commerce, the tariff would be applied to the realization of such market its own goods if it persisted in refusing to admit a sufficient volume of the products of other countries."

Let it be repeated, therefore, that now—with partisan differences in Canada having been thrown into the discord on this question—is the time for the Canadian Government to take a lead of a great sentimental value in favor of a far-reaching reciprocal trade agreement with the United States, and the presentation of a united front in order that our great natural market to the south may be re-opened in which to sell our primary products, and freedom in buying across the line be accorded to our people in the case of those many things which the United States can supply naturally, quickly from the standpoint of service, and more economically than any other country.

## World's Poultry Congress

The first World's Poultry Congress was held in the Netherlands in 1921; the second in Spain in 1924; the third in Canada in 1927, and the fourth in 1930. The fifth will be held in Rome, in September, to which Canada will send a fine contingent of Canadian birds through the Dominion Department of Agriculture.

"I want you to grow up straight—every inch a man," said the king to his son, "so that you'll make a good ruler."

Nervous—Could Not Sleep  
Tired Out All The Time

Mrs. George Scrimgeour, Nawngrew, N.B., writes:—"I was so very nervous I could not sleep at night, and felt tired out all the time."

A neighbor told Mrs. Scrimgeour: "Heart and Nerve Pills" and as she was using them at the time she gave me some to try. I found they were doing me so much good I procured two boxes and they proved of wonderful help to me."

Husband—Mrs. Bridget suffered any bereavement lately? The toast she serves is always in deep mourning."

## Sweden's "Garden Cities"

Stockholm Is Frightened With Communists Since War

Factory-made cottages that can be put up in a day have become popular in Sweden since the war, and there is a fright with little "garden cities."

The workers who tire of apartment life can order a new home on Monday and help his wife put the curtains up and lay the rugs a few days later.

The "garden cities" are part of a communal building program, designed to provide low rents for wage earners, in which the city government in the last ten years extended direct money loans to nearly 160,000 persons, almost one-fifth of the population of the city.

The program was instituted after the World War when there was a shortage of homes as a result of industrial development. The government has large country estates, and these are leased out on long-term leases.

The person who decides to build a cottage can have 99 per cent. of the cost advanced by the government. The interest charged on this money pay for road development, gas, water and sewer mains. For a modern cottage, with three rooms, kitchen and full basement, the dweller pays about \$900 a year.

## Property Of The King

Many Important Thoroughfares In London Belong To Crown

Choice properties of London and splendid agricultural estates are listed among the holdings of the Crown Estate Commissioners, who own the estates once owned by the Kings of England. In present times, Western Ontario is dotted with old burying grounds. In some cases the bodies have been removed to public cemeteries, but at nearly every old burying ground a pile of granite stones stands, a sort of last resting place above the graves of the pioneers, guarded by mothering slabs of marble, neglected, forgotten and sometimes disinterred.

A seven sons and one daughter lived in a seven-room house, which their mother and when the father died, was buried on the farm, the daughter was heart-broken. Soon it was whispered about that she was a ghost haunting the settlement, and the ones who had been out late nights reported they had seen a figure draped in white, gliding along the highway.

Followed one night, a doctor in the company, it was discovered that the ghostly daughter was a shadow of her mother in her grave. The brothers were warned to guard her, but not to awaken her. In her, and one brother grew tired of what seemed to him foolishness, on a rainy night. He believed she was not asleep at all, but only acting, so when he went to her, he awoke her. She awoke very crossly to her and woke the poor girl up. She was terrified and fled. Her brother, now frightened, followed her as fast as he could, but lost sight of her. He found her in a field and a posse was sent to search for her.

She was found unconscious later in the day, where she had fallen from exhaustion miles from home. She was taken home in a raving fever, and died soon after.

## Fewer Using Family Crest

Heavy Taxation In England Appears To Be Chief Cause

The family crest used on carriages, table silver, cigarette cases and rings, etc., was in great vogue in 1923 and 1924.

Nearly 7,500 licenses were issued there in 1929, the last year for which figures are available, that total had shrunk by about a third, or some 2,600 and the L.C.C. authorities expect a further decline in the current year.

It is the opinion of the experts that the decline is due to the

abolition of heraldic bearings appears to be the chief cause. Many of these old families have become extinct, and not a few of the last representatives have emigrated. Perhaps changed habits, which have led towards habits more in accordance with the times, have afforded the guinea license, and a generation hence armorial bearings may be used chiefly by colleges, public schools, and civic and other corporations.

—Edinburgh Scotsman.

## The Poor Taxpayers

Members of the United States Senate during 1932 were supplied with several thousand dollars worth of free aspirin tablets. This is the poor tax-payers' bill.

They have to foot the bill for somebody else's headache.

Minature furniture for a doll's house made from porcupine quills, beads and pins, by a Singapores artist, has been presented by the Queen of England to the Victoria and Albert Museum in London.

Man Won Competition

All-England lace knitting competition, recently held at Leighton Buzzard, was won by a man. Moreover, the winner is Mr. David Read, who is a trade, a master of lace, who possesses all the requirements for this delicate craft—keen eyes, steady fingers, and a fine perception of art, and so exquisite was the lace he submitted that the work of the numerous young lady competitors was put in the shade.

## CHAPTER VIII.

## A Deadly Trap

"Slab-leg," Jensen was glaring around him at the other five faces in the tent.

"Some of you lubbers," he growled, "ain't got the sense you was born with. You gonna a pain with your whining and growling and always was so angry about what I tell you. Now I'm gonna explain just what's ahead of us and what we gotta do."

The six men were as motley a crew as ever the winter fleets of Bering's seen. There were West Coast Indians, some mounter up. With one exception, the six of them were deck hands—sharpeners of gutter speech and slyly vicious; strange men to be camped in a part of a wilderness that even the Indians had not penetrated.

There was John Siberian, a square-faced squat Alaskan, a descendant of the Cossack Promyshlennik (fur-hunters) who for generations, when Russia ruled the northwestern shores of America, had held bountiful supplies of furs and Kalaik in their lust for peltry.

There was Pete Gonzales, a Sandwich Islander, brown-skinned, his white teeth flashing; his dress gaudy and grotesque.

There was "Lumon Dick," a wiry simpled henchy, with Bitterness accent and quick jerky ways.

There was "Chink" Woolley, a quarter-Chinese, an olive-faced, silent nondescript, with his right arm in a cast from Bill Haskel's fist.

There was "Duke" Haskel, a man of small, thin, weak-limbed like man of fifty. He had just returned from a scouting trip down the Big Alesoo.

The six of them were talking, or listening rather to Jensen's talk, of an adventure to be undertaken. They had a general idea of the geographical line of ramshackling which Alan Baker had sketched in Haskel's cabin. Jensen went on: "Some of you wanna go back to the River and git outside thataway. H—l—f—re—y—ou'll mabe git ten miles before the Yellow-stripes 'em catch you off. Some of you wanna go north to the Arctic Ocean. With no ships to git away on and the Yellow-stripes get patrois there to boot. You say, 'Head south.' Yeah—run into the nest of police posts down around Athabasca. We can't go north, but we're north but we kin go south."

Lumon Dick spoke up: "Clear hover t' 'Udon Bay or Manitoba? Two thousand miles haway? That's a bloody long 'ant'." Jensen turned on him with a fierce anger and withering sarcasm that silenced Lumon for an hour.

"Clear hover t' 'Udon Bay or Manitoba? Two thousand miles haway? That's a bloody long 'ant'." Jensen turned on him with a fierce anger and withering sarcasm that silenced Lumon for an hour.

W. N. U. 1987

"Sure it's a h—l—h long hard try, you nutty little hedge rat! Don't I know it? But I got out, tramped, tramped miles and miles do they twenty slow steps from a horse-gow to a scatful!"

The others all nodded emphatically, earful of Jensen's scorching anger. They were sitting there on a hundred and fifty thousand dollars which he had paid for them. They were their very lifeline to his future. They had pulled their trick out of the fire. And they were leaning on him now to save them from the Mounties and get them out to the oblivion of a big city.

He went on explaining the escape, the fight with the Mounties. He smoothed a place on the mud floor; and as the others leaned forward to watch, he drew a rude map with his long thumb nail. "Well" followed the Inconnu east and ways and then south to Manitoba. "We'll spend the winter there, and then we'll start working down into timber country. Then we'll find some good bedding place and build a couple of shacks and lay in meat, and well wait there till the spring. Next spring we'll east down and out to Winnipeg, and there we'll be with better's a hundred and fifty thousand in hide and dust!"

His own personal and private plans after they did get out to Winnipeg, he said, were to have a place in the Queen City of the West Plains who would buy the furs at two-thirds of their auction value and say "mudding." The dust, being unstamped, could sold anywhere. He had no money, but his master was the master of this crew, who naturally attend to those business matters. Once with the money in his pocket, he would split six ways with these lubbers? Or would he take a train and fade out of them? Even and have that hundred and fifty thousand for his own sweet own? You bet your life he would.

Knocking the ashes from his pipe, he leaned forward again.

"I've got an idea. I just showed you lubbers our one chance to 'escape.' Now I'm gonna show you how we can make our getaway dead sure and certain. How we c'n't them Yellow-stripes up in a sack and throw away the key. Anybody objecting?" Anybody wanting to kick over the traces.

Glaring around him, he saw emphatic denials. The men were hanging upon his words; and knew they would obey him without a whimper of protest.

He went on. "We're going to make a little sachay down the Alesoo to MacMillan's trading post. We're going to it tomorrow. We'll rap that old duffer on the head and take the men and the horses and them Yellow-stripes dear off the scene. While they're hunting for him, we'll be making tracks southeast to Manitoba. Y' mind how we saved our skins on the steamer by taking that other skit? We'll do it again; but well carry this on along with us. No one'll even know what happened to us."

They were altogether baffled. They must be pounding their heads to explain why he and his men were there, why they had come from, how they had got into that country, whom they had seen, and how they, complete strangers, had known the ins and outs of this northern wilderness as well as the police themselves. He thought of them as a pack of hounds circling frantically to come from him, how they had got into that country, whom they had seen, and how they, complete strangers, had known the ins and outs of this northern wilderness as well as the police themselves.

He guessed that for once the police were altogether baffled. They must be pounding their heads to explain why he and his men were there, why they had come from, how they had got into that country, whom they had seen, and how they, complete strangers, had known the ins and outs of this northern wilderness as well as the police themselves.

Through the tobacco haze Jensen looked back across six years and saw again all the details of a certain incident. It was the Mackenzie and Joyce Mackenzie. He had resolved to end it a thousand times since it had begun.

The memory of that laughing-eyed girl, had come down across the years like the scent of fresh violets. Two weeks ago he had been part of a gang of trappers, the place had seemed deserted, and drawn by some overpowering impulse to see her, he to be near her again, he had flung caution and hot hate to the winds, and stepped and gone about, a great, great pain under her head, a great, great violet in her hair—that flesh-and-blood reincarnation of her former memory had been a madness in his blood ever

## FREE TRIAL OFFER of KRUSCHEN

If you have never tried Kruschen—try it now at our expense. We have distinctive "Giant" and "Regular" "Giant" packages which make it easy for you to prove to yourself that Kruschen is the best product for the new "Giant" 725 package.

The Kruschen "Giant" comes with a separate trial bottle—sufficient for most of the contents of the package. If you like it, you can buy it at a discount. If not, return the bottle and get a full refund. The "Regular" bottle is sold as good as new. Take it home and taste it. If you like it, buy it. If not, return it and get a full refund.

What could be fairer? Manufactured by Kruschen, Inc., 1000 Broadway, New York, 1926. Importers—McGraw Brothers, 1250 Broadway, New York.

## Prince Has Useful Hobby

Taught By Queen Mary He Knits  
Unusually Well

Before the Queen's hobby may be going about wearing proudly a woolen shawl that was knitted by the Prince of Wales. For the heir to the British throne knits and crochets, too, enjoys doing both and does both unusually well.

Attention was drawn to these little-known diversions by a recent episode. In a box of clothing sent from St. James's Palace to the Lambeth depot of the Personal Service League was a hand-knitted scarf. But for a change, the Prince had given this scarf, which is on his estate, the name in question probably would have remained undistinguished from the rest of the garments.

Seeing the scarf in the pile, however, Prince Charles started to speculate on what he might have done to this scarf. At once he was separated from the pile. The news spread quickly and high offers were made for it.

It is not the first knitted by the Prince. Queen Mary takes a personal interest held its annual exhibition some time ago, three scarves made by the Prince and three made by his younger brother, Prince George, of each knitted and the other one crocheted were among the articles displayed.

The Prince of Wales is the most popular of all the royal family. He would be ridiculous easily, he imagined to knock the old coat on the head and take the defenses off. They would land about the station and creep upon it through the bushes. Some men would go specifically to knock the old coat and watch their chance to seize her. His party could swoop, strike, and have the whole thing over in ten minutes.

Knocking the ashes from his pipe, he leaned forward again.

"I've got an idea. I just showed you lubbers our one chance to 'escape.' Now I'm gonna show you how we can make our getaway dead sure and certain. How we c'n't them Yellow-stripes up in a sack and throw away the key. Anybody objecting?" Anybody wanting to kick over the traces.

Glaring around him, he saw emphatic denials. The men were hanging upon his words; and knew they would obey him without a whimper of protest.

He went on. "We're going to make a little sachay down the Alesoo to MacMillan's trading post. We're going to it tomorrow. We'll rap that old duffer on the head and take the men and the horses and them Yellow-stripes dear off the scene. While they're hunting for him, we'll be making tracks southeast to Manitoba. Y' mind how we saved our skins on the steamer by taking that other skit? We'll do it again; but well carry this on along with us. No one'll even know what happened to us."

They were altogether baffled. They must be pounding their heads to explain why he and his men were there, why they had come from, how they had got into that country, whom they had seen, and how they, complete strangers, had known the ins and outs of this northern wilderness as well as the police themselves.

He guessed that for once the police were altogether baffled. They must be pounding their heads to explain why he and his men were there, why they had come from, how they had got into that country, whom they had seen, and how they, complete strangers, had known the ins and outs of this northern wilderness as well as the police themselves.

Through the tobacco haze Jensen looked back across six years and saw again all the details of a certain incident. It was the Mackenzie and Joyce Mackenzie. He had resolved to end it a thousand times since it had begun.

The memory of that laughing-eyed girl, had come down across the years like the scent of fresh violets. Two weeks ago he had been part of a gang of trappers, the place had seemed deserted, and drawn by some overpowering impulse to see her, he to be near her again, he had flung caution and hot hate to the winds, and stepped and gone about, a great, great pain under her head, a great, great violet in her hair—that flesh-and-blood reincarnation of her former memory had been a madness in his blood ever

Baker's Inconnu was some large river. Perhaps the chart listed it as "The Unknown." The English translation of the name. He searched for an Inconnu, but the map was blank, but found neither. Such a stream simply was not shown on his map.

When Little Otter came in to the post for a supply of chewing tobacco, Haskel paid him. The sub-chief said he had been told where the Inconnu was, but his ignorance was so great he did not admit it. He started talking, gesticulating—till Kruschen caught him in a flat self-contradiction and kicked him out of the cabin in anger disgust.

## ROYAL YEAST CAKE

### Coffee Cake

*A Real Treat!*

#### COFFEE CAKE—equally popular for tea, lunches, suppers...

Breakfast cake—make in bulk. (About 1½ lbs.) Shape into regular coffee cake shape. Add 1 cup of coffee to the flour. Mix 2 c. flour and 1½ cup sugar to 1 cup coffee. Add 1 cup milk, 1 egg, 1 cup shortening. Make a soft dough. Knead right. Shape into coffee cake with nuts or cinnamon. Baked 30 min. to 1 hour.

#### ROYAL YEAST SPONGE

warm place free from  
draughts. Massa 2 cups  
of butter.

**ROYAL YEAST**  
Cakes  
are  
made  
from  
the  
finest  
yeast  
available  
in  
the  
world.

#### Produced Queer Fruit

##### Half Lemon Half Orange Evidently Evolved From Grafting

A very unusual freak, half lemon and half orange, was received in a shipment of California fruit opened at home. Sealed in air-tight waxed paper, they stay fresh for months. These famous dry year cake have been the standard for over 20 years. And used for fruit cakes, the ROYAL YEAST BAKE BOOK—gives 22 tested recipes. Address Standard Biscuit Company, Fraser Ave. & Liberty St., Toronto, Ont.

Forgetful things which are here and, reaching forth into things which are before, I press toward the mark."—Philippians 3:14.

Yet I argue not Against Heaven, but will, nor hate to. Of Heart or hope; but still bear up and steer Right onward.—John Milton.

It is not by regretting what is irreparable that true work is to be done, but by making the best of what we have. It is not by complaining that we have not the right tools, but by using what tools we have. What we are and where we are is God's providential arrangement. We are doing though it may be man's misdeed; and the many and wise way is to look upon your disadvantages in the face and see what can be made out of them. He is the best general who wins the most splendid victories by the retrieval of mistakes.—F. W. Robertson.

London's newest office building contains 1,668 windows, 700 wooden and 365 steel doors, and more than 20 miles of hot and cold water pipes.

## Little Helps For This Week

### Forgetful things which are here and, reaching forth into things which are before, I press toward the mark."—Philippians 3:14.

Against Heaven, but will, nor hate to. Of Heart or hope; but still bear up and steer Right onward.—John Milton.

It is not by regretting what is irreparable that true work is to be done, but by making the best of what we have.

It is not by complaining that we have not the right tools, but by using what tools we have. What we are and where we are is God's providential arrangement. We are doing though it may be man's misdeed; and the many and wise way is to look upon your disadvantages in the face and see what can be made out of them. He is the best general who wins the most splendid victories by the retrieval of mistakes.—F. W. Robertson.

The Mutual Savings Society, of Dunbar, Scotland, which was established 104 years ago, has just had its annual distribution of funds.

## FOR ANY PAIN

Have you ever found any quicker relief than this?

Anyone can take Aspirin, for doctors have declared these tablets perfectly safe.

And there is no quicker form of relief for any pain.

It is well to remember these things when anyone tries to persuade you to take anything in place of these tablets.

Aspirin may be taken as often as there is any need of it for comfort: to stop a headache, to relieve a cold, drive away the pain from neuralgia, neural-

gia, rheumatism, lumbago, etc.

Whenever you take Aspirin you know you are going to get immediate results—and you know there will be no ill effects. You know what you are taking.

Why take chances on some form of relief which may not be as swift—may not be as safe? The new reduced price on bottles of 100 tablets has removed the last reason for ever experimenting with any substitute for Aspirin.

for CUTS & SORES

Aspirin is freely applied to cuts and abrasions. It is wound healing and helps to stop bleeding.

There's nothing better!

**MINARD'S**  
**"KING OF PAIN"**  
**LINIMENT**

A vanished race has left traces of an active life on the shores of Northern Greenland. No trace of living skeleton has been discovered since 1823. It is thought that some sudden tragedy must have overcome the Eskimos, because in several hunting trips made to the region by the Royal Geographical Society found a number of implements among the ruins, many of which were well preserved and of archaeological value. The judge from the implements, the coast seems to have been inhabited about 1400-1500.

Our machine has been invented that can turn out 34 miles of wallpaper daily. Sheets of plain paper fed into the machine, often are four miles in length.

A ton of gold is worth nearly \$500,000.

Aspirin is a trademark registered in Canada

## ESTIMATED COST OF FARMERS' AID FUND IS GIVEN

Ottawa, Ont.—Cost of the agricultural assistance fund to be established by the federal government will be more than \$5,000,000, but less than \$10,000,000, dependent on the volume of business in the commodities affected on currency exchanges, said Premier R. B. Bennett.

The Prime Minister made this estimate in answer to a question which questioned about the fund by Rt. Hon. Mackenzie King, leader of the opposition. Mr. King asked why provision for the fund should be made in the relief bill then before the House since it was not a relief measure, but a tax on agriculture.

"It is not a bonus or a bounty in the ordinary sense of those words," said Mr. Bennett. "It is properly a relief measure and is consequent on the low price of farm products and the depreciation of the currency of the country to which they are chiefly exported."

The relief bill provided for farm as well as unemployment relief, Mr. Bennett went on. The low prices of farm products were a factor in this necessity. The stabilization scheme would provide relief for the farmers by improving prices for the commodities it applied to, and providing security against exchange fluctuations.

### Hilter In Command

#### Act Passed Granting Nazi Chief Four Years of Dictatorial Power

Berlin, Germany.—The Reichstag, with the Social Democrat opposition, passed an empowering act granting Chancellor Hitler's demand for four years of dictatorial power.

Chancellor Hitler, shouting above the cheers of his Nazi deputies, demanded four years of dictatorial power.

He relegated the issue of the monarchy to the background, lifted the destruction of Communists to the fore of his program, reiterated the familiar Nazi thesis of arms equality for all and promised a campaign of "barbaric severity" against all traitors.

Wave after wave of applause and cheers drowned his voice from time to time. The Nazis, who control the House, especially those who sit next to the Reichstag building just before the last election, there was tumultuous applause again at his announcement of a campaign of "barbaric severity" against all guilty of treason."

The first big cheer came when he expressed his desire to "make the Reich a 'barbaric' country" and the men who sat next to the Reichstag building just before the last election. There was tumultuous applause again at his announcement of a campaign of "barbaric severity" against all guilty of treason."

"No gigantic revolution of similar dimensions ever has been carried out with such unvarying discipline and so little bloodshed as our revolution," he cried, and the Nazis cheered again.

He declared that "an unexamined crime" the 1918 revolution which gave birth to the German republic, now virtually destroyed to make way for the new regime.

### Expect Price Increase

#### Jam and Marmalade To Cost More, Is Prediction

Hamilton, Ont.—An increase in the cost of jams and marmalades is forecast by Col. A. G. MacNaughton, of E. D. Smith and Sons, Winona, who said the sugar and sales tax on jams, fifty per cent, of the content of jam sugar, he said.

Wine will be increased five cents per bottle, he added. Akenhead, a prominent grocer grower and wine man of Vinsland, unless—when he thought this unlikely—the liquor control board absorbs the additional costs caused by the sugar excise tax and that our profit spirits.

**Air Station To Be Dismantled**  
London, Eng.—Howden air station, in the Yorkshire East Riding, home of the R-100, and during the war, of other airships, is to be pulled down. Howden airship shed cost £250,000, and was completed in 1921. The entire building cost £750,000.

**Follow Canadian Plan**  
Washington—Proposals for refinancing United States agriculture and home mortgages along the same general lines as the Canadian system will be sent to congress soon by President Roosevelt.

### Peace Club Organization

#### Premier Of France May Meet Mussolini To Further Plans

Paris, France.—A trip by Premier Edouard Daladier to Italy for a direct discussion with Premier Mussolini to further the peace cause in efforts to organize a four-power "peace club" it developed here.

The meeting apparently depends on the reaction of Premier Mussolini to the representations in Paris held by M. Daladier of France and Sir Kenneth MacDonald, Great Britain. The British and foreign statesmen discussed the Mussolini "peace club" project, which the Italian premier had explained to Mr. MacDonald when the British Prime Minister was in Paris.

Semi-officially it was revealed no plans have been made for the Daladier-Mussolini meeting, which probably would take place in northern Italy. For a number of years the League of Nations has been a rule not to leave his own country.

In principle the French have agreed to the Mussolini plan, but certain modifications have been asked. The French have agreed to the principle within the framework of the League of Nations because they believe they would be able to muster sufficient influence in the league to halt or counteract a possible Italian-German bloc against them.

### Wheat Conference

#### Pans Have Not Yet Been Advanced For U.S. Participation

Washington—Plans have not yet been advanced for United States participation in a conference of wheat exporting countries, including Canada, seeking grain price stabilization, but that part of President Roosevelt's program of economic rehabilitation and international action was believed to be awaiting congressional consideration of the administration's farm relief formula.

A significant note in the new wheat trade normality through reciprocal agreements with countries nations was Secretary of State Hull's announcement that just as soon as congress has completed work on emergency domestic relief legislation, he would be in a position to submit to the Senate a bill for international action.

"Looking over the world," he declared, "one can see indications the industrial situation is likely to improve within the next few months."

Mr. Chamberlain also found confidence in a United States bill for international action.

The wheat conference was awaited as a remedy to the existing acute world condition in which exporting countries had vast surpluses while countries normally considered as wheat importers do not buy.

### Home Rule For Canada

#### Premier Encourages Alberta Would Give Canada Right To Amend Constitution

Edmonton, Alberta.—Full right for Canada to amend its own constitution, giving home rule in every sense of the term, is proposed in an amendment introduced by Premier Brownlee moved to a resolution under debate in the legislature here.

The amendment was a resolution moved by Col. F. C. Jamieson, Conservative, Edmonton, who proposed that the provincial government be given the right to negotiate with the Dominion that no request for an amendment to the B.N.A. would be made without the consent of this assembly.

### A Narrow Escape

#### Little Girl Ran Over By Train, But Is Unhurted

Dalhousie, N.S.—A two-year-old Chana Klein, daughter of Mr. and Mrs. Otto Klein of Dalhousie, was run over by a train, but is alive and uninjured although badly frightened.

The child was walking on the railway tracks when a train approached. Terrified, she started to run but stumbled and fell.

The engineer applied the brakes. The engineer, however, passed over the little girl.

Members of the train crew climbed out from the cars and found the child beneath the coal-tender. The child was slightly hysterical but had escaped without a bruise.

### Starting Bank Probe

#### Ottawa, Ont.—The government will

set to work at once to investigate the financial situation of the Canadian banking system and consider the pros and cons of arguments in favor of a central banking system.

The commission was confirmed in the budget speech of Hon. E. N. Rhodes, Minister of Finance, in the House of Commons.

### Treatment Of German Jews

#### Canadian Delegation Asks Premier Bennett To Investigate Troubles

Ottawa, Ont.—A delegation of Canadian members of the House of Commons, consisting of S. W. Jacobs, A. A. Heaps and Samuel Bennett, on Monday and Tuesday, called on Minister and Minister for External Affairs, asking on behalf of Canadian Jews, that steps be taken to ascertain the nature of the mistreatment alleged to have been suffered by German Jews since the Hitlerite government came into power.

The Prime Minister received the delegation sympathetically and undertook to communicate with Dr. Osbert Sitton, under-secretary of state for External Affairs, who is in London, asking for a complete report on the situation.

The delegation took the view that Canada, being a member of the League of Nations, of which Germany is not a member, the racial and religious rights are safeguarded by the league, appropriate action could be taken by that body to preserve Jewish rights, which, it is claimed, are being attacked by the Hitlerites.

**MANY SIGNS OF WORLD RECOVERY ARE IN EVIDENCE**

### Large Conversion Loan

#### Opportunity May Be Presented To Canadian Bondholders In The Fall

London, Eng.—In an optimistic speech in the House of Commons, the prime minister said he could not see why the world economic conference would not be held within the next two or three months.

The Chancellor of the Exchequer has been charged with being pessimistic in regard to the possibility of a loan being offered before that time. It is learned here, in his budget speech, Hon. E. N. Rhodes, Minister of Finance, forecast a conversion loan "at least" but not more than £100,000,000.

The present negotiations of the government mature as a rule late in the fall and this year it is understood the funding requirements will be in excess of £300,000,000.

**Canadian Banks Sound**

#### Chartered Bank Comes Through In Run Without Assistance

Ottawa, Ont.—One of the chartered banks of Canada has come through a "run" in which \$10,000,000 in deposits were withdrawn, without the aid of assistance from other banks or from the Dominion government. Premier Bennett told the House of Commons.

The Premier mentioned this as an instance of the soundness of Canadian banks when his government was charged with unfairness in not coming to the aid of the Manitoba savings office last year.

**Alberta Redistribution**

Edmonton, Alberta—Alberta government will inquire into redistribution of provincial ridings if the legislature adopts a resolution introduced by Premier Brownlee.

Mr. Brownlee, Minister of Public Works. Quite a reduction in the number of legislature members would result, it was stated, if such an inquiry was held.

**THE SOUTH ATLANTIC'S FIRST FLOATING AERODROME**

The Norddeutsche Lloyd liner "Westfalen," of 5,000 tons, has been converted into a floating aerodrome and will be used in the South Atlantic Ocean for the use of pilots on the way to and from South America, Africa. Our picture shows the catapult on board the "Westfalen" for starting flying boats.

### SITS WITH LEAGUE

A recent photograph of Hugh R. Wilson, United States Minister to Switzerland, who has been named as United States representative who will sit in at the League of Nations' conference on the Pan American trouble. Although the United States will not vote, nor will it bow in advance to League decisions, it will cooperate with other nations in endeavoring to find a solution to the Sino-Japanese tangle.

### Wins Air Trophy

#### Edmonton Flyer Awarded Recognition For Meritorious Service

Ottawa, Ont.—Manfred Burbridge, instructor of the Edmonton Flying Club, has been awarded the trans-Canada to aviation during 1932, according to the headquarters of the National Defense Department. Mr. Burbridge is the sixth winner of the trophy, annual award of which began in 1927.

Mr. Burbridge joined the Royal Flying Corps in 1917, became an instructor to the Edmonton Flying Club in 1929, and to his energy and leadership has been attributed the outstanding record of that organization.

**Frowns On Lotteries**

#### Premier Believes Lotteries Should Be Banned To Crown

Ottawa, Ont.—One of the chartered banks of Canada has come through a "run" in which \$10,000,000 in deposits were withdrawn, without the aid of assistance from other banks or from the Dominion government. Premier Bennett told the House of Commons.

The Premier mentioned this as an instance of the soundness of Canadian banks when his government was charged with unfairness in not coming to the aid of the Manitoba savings office last year.

**Alberta Redistribution**

Edmonton, Alberta—Alberta government will inquire into redistribution of provincial ridings if the legislature adopts a resolution introduced by Premier Brownlee.

Mr. Brownlee, Minister of Public Works. Quite a reduction in the number of legislature members would result, it was stated, if such an inquiry was held.

**GOVERNMENT TO STUDY PLANS FOR IDLE INSURANCE**

#### Ottawa, Ont.—The House of Commons took the first step to demand for another year that government

should raise legislation and clothe the administration with wide powers to deal with the "peace, order and good government" of the country.

Without received division, a resolution was passed instructing the government to bring in the relevant legislation, climaxing a week or more of debate.

The government is gathering data on a contributory unemployment insurance scheme to cover every man, woman and child with the constitutional rights of the provinces. Hon. W. A. Gordon, Minister of Labor, told the House. It will be necessary for the provinces to surrender some legal rights before a nation-wide scheme is possible, a administration will be able to establish.

Mr. Guthrie, Minister of Justice, said the government will be able to establish.

At the recent Dominion-provincial conference, continued Mr. Guthrie, the provinces declined to surrender their legal powers of insurance and were only willing to implement to the North America Act to enable the Dominion to act alone.

Before any federal scheme could be established, the Dominion must have power to compel employees and employers to contribute to the central fund—a power now vested in the provinces.

The Dominion placed no detailed insurance scheme before the provinces at the conference, the labor minister said, discussion ranging around the constitutional aspects at stake. Until that matter was resolved, details were impossible.

### No Plans For Conference

Washington—Plans have not yet been advanced for United States participation in a conference of wheat exporting countries, including Canada, seeking grain price stabilization.

President Roosevelt's program of economic rehabilitation by international action is believed to be awaiting congressional consideration of the administration's farm relief formula.

### Radio Centralization

New York—Canadian independent radio broadcasting companies will probably be drawn into a centralized corporation pattern after the British model. Major M. E. Gladstone Murray, public relations counsel of the British Columbia Broadcast Corporation, proposed on his arrival here recently.

### Continue Relief Plan

#### Minister Of Labor Replies To Question Of Opposition Leader

Ottawa, Ont.—The Dominion government will continue to do in the future what it has done in the past year to combat unemployment. Hon. W. A. Gordon, Minister of Labor, told the House of Commons. The minister was replying to a question in which Rt. Hon. Mackenzie King, leader of the opposition, asked whether or "apart from the dole," the government had any comprehensive, co-ordinated plan to announce to the House dealing with unemployment relief."

The government's policy was that measures should be devised first to assist the people who were very poor and unable to take care of their own people, said the minister. The government would help the provinces to project any schemes which they may conceive or which the Dominion may conceive within the financial limitations of the governments to provide employment or take care of direct relief.

Mr. Gordon believed the situation was not getting worse. He knew there was a tendency to be more and more pessimistic, he said, but the grade and thus fulfill their own prophecies. However, the Dominion government would not invade the jurisdiction of the provinces.

**CHURCHILL RAPS FOREIGN POLICY OF MACDONALD**

London, Eng.—Prime Minister MacDonald, in facing the House of Commons for the first time since his Rome peace conference with Premier Ettore Mussolini, of Italy, ran into bitter opposition from Rt. Hon. Winston Churchill, former Conservative Chancellor of the Exchequer.

Mr. MacDonald sought to assure the House of what he regarded as the soundness of the Mussolini "peace club" plan and of his belief that, with slight regrading, the British and the Mussolini plans might be combined. His speech brought cheers from the government benches, but roused Mr. Churchill to a bitter attack on the whole British foreign policy.

Four years ago, the former chancellor said the Prime Minister had directed the nation's foreign policy, and yet the United Kingdom was nearer war than before.

He described the conversations Mr. MacDonald and Foreign Secretary Sir John Simon had with the Italian premier as a visit to "Don Quixote and Sancho Panza."

He contemptuously scored methods of the world disarmament conference as "measuring swords at Geneva" and as "a fertile advertisement of all the things that the British government maintained could not support the British disarmament plan which the Prime Minister and Sir John delivered in an effort generally considered at least partially successful, to rouse the confidence to reactivate."

Mr. Churchill also attacked the portion of the MacDonald plan which called for reorientation of military forces among European states, including reduction of French forces and increase of those of Germany.

General Sir John, he said, was going through a "mammoth resurgence of ferocity and was spirit." He accused him of extending "pitiless treatment" to minorities and of "denying normal treatment to civilized society merely on account of race."

### Canadian Ride Team

#### Congratulated By Governor-General On Their Performance

Ottawa, Ont.—The performance of the Canadian ride team at Bisley last year placed it in "a most praiseworthy position," the Governor-General said in congratulating the Dominion of Canada Rifle Association on a successful year. His Excellency attended the annual meeting of the organization held here.

Indications the riflemen was coming back to his old position of importance in the army were seen by Major-General A. G. L. McNaughton, chief of the general staff, who also attended the meeting.

Major C. R. Grove, of Guelph, was elected president, succeeding Col. D. R. Street, of Ottawa.

### Cut Through Snow Drifts

#### Use Cross-Cat Saw To Open Up Highway

Fernie, B.C.—The provincial board of works has completed a cut through the gigantic snowdrifts on the highway between Fernie and Lakeview, a distance of 12 miles. The cut through the slide is of exceptional proportions, perhaps the greatest ever made in Canada. It is more than 1,000 feet in length with a maximum depth of 32 feet. It was necessary to cut out blocks of the packed snow and level with cross-cut saws.

### No Plans For Conference

Washington—Plans have not yet been advanced for United States participation in a conference of wheat exporting countries, including Canada, seeking grain price stabilization.

President Roosevelt's program of economic rehabilitation by international action is believed to be awaiting congressional consideration of the administration's farm relief formula.

The Dominion placed no detailed insurance scheme before the provinces at the conference, the labor minister said, discussion ranging around the constitutional aspects at stake. Until that matter was resolved, details were impossible.
